

100 Perceptions: Raw Materials

Pre-Documentary Survey

		Strongly Disagree	Disagree	Do Not Agree or Disagree	Agree	Strongly Agree
1.	I have heard about Critical Raw materials.					
2.	Many critical raw materials used in society are mined from the earth.					
3.	All Earth's raw materials are widely available globally.					
4.	We need raw materials to produce more batteries for Electric Vehicles.					
5.	The mining sector plays a fundamental role in switching to renewable energy sources.					
6.	I support the import of raw materials from countries outside the UK and Europe, like China and Chile.					
7.	Society is reliant on critical raw materials to grow their renewable energy infrastructure.					
8.	In general, mining for critical raw materials has negative effects on society.					
9.	Considering all pros and cons, I find mining acceptable.					
10	Overall, I believe mining is more good than bad.
